Managing your accreditation with easy2certify you can enforce your procedures and methods by just using the system</p> |  <p>PROCEDURES & METHODS
By arranging workflows</p> |

easy2certify is a web-based application for **certification and inspection bodies** to fully **manage their primary and secondary processes**. One of the most important secondary processes is your accreditation process. By using easy2certify you build your accreditation archive by just doing what you already supposed to do. Our and our client's expertise, experience and process-understanding allowed us to make accreditation semi-automated, therefore relieving organisations from a painful process.
